PROJECTS

UBER CLONE | MERN STACK
- Built a fully functional Uber clone with real-time ride tracking, user authentication, driver-passenger management, and live location updates using MongoDB, Express, React, and Node.js.
- Separate login/signup flows for **drivers** and **passengers** with **JWT-based security**.
- Used **Firebase/Socket.io** to alert users about ride status (driver assigned, arrival, completion).

JOB-PORTAL | MERN STACK + AUTOMATION
- Developed a job portal that enables job seekers and recruiters to register, search, and post jobs with resume parsing and job-matching automation using the MERN stack.
- Dashboard for candidates to track **applied jobs** and recruiters to manage applicants.
- Automated alerts for **new job postings, application status updates, and login/signup**.

WANDERLUST – TRAVELING WEBSITE | HTML, CSS, BOOTSTRAP, JS, NODE.JS, EXPRESS.JS
- Signup/login with **JWT (JSON Web Tokens)** for secure access.
- Enables users to book flights, hotels, and tours in one place.
- Allows travelers to share reviews and ratings.

Work EXPERIENCE

Web Developer Intern– Octanet Service Pvt Ltd	**June 2024 – July 2024, Jaipur, India**

- Designed and developed a dynamic e-commerce website using HTML, CSS, and JavaScript.
- Collaborated with the team to enhance user interface and responsiveness.
- Gained hands-on experience in real-world web development practices

---

ACHIEVEMENTS & CERTIFICATES
